User Friendly - The Call Recording Reports module allows you to easily see in one place all system recordings that were made on a given day. The module only creates entries for days that contain recordings to save you from searching every day.

Report for date 2015-07-24

Total recordings = 3

Type	Source	Destination	Time	Duration	Play	Delete
ondemand	100	100	10:55:12	6:31		<input type="checkbox"/>
ondemand	121	121	15:28:53	16:32		<input type="checkbox"/>
Outbound	5724	6315550	11:51:24	0:07		<input type="checkbox"/>

Download and Listen - Your client can download and listen to any recording simply by pressing the blue play icon next to each recording.

Archives - You have the flexibility to archive past recordings and save them for later use.

Want to learn more about other valuable NimbusVoice modules? Contact us and we'll setup a live demo to show you all that the Nimbus platform has to offer.
